

Annual Giving

Providing annual support to the Wysong Institute allows your gift to be used for critical projects. Programs and educational information are funded throughout the year with these gifts.

As a donor to the Wysong Institute, you are investing in these programs and the educational outreach of the Wysong Institute.

Wysong Institute honors donors who take the lead in supporting the Institute through an annual contribution.

Giving Levels

Please complete the form below and send it with payment, including postage, to:

Wysong Institute, 1880 North Eastman, Midland, MI 48642-7779 USA

You may also telephone your gift Monday-Friday, 8 am-5 pm E.S.T., at (800) 748-0188.

Or you may visit our website at www.wysonginstitute.org

Contributions to Wysong Institute are tax deductible to the fullest extent of the law.

Goals and Activities Include:

- Provide a place for philanthropically minded people to place donations without fear that funds are siphoned to large salaries or other non-philanthropic expenditures.
- Focus on fundamental solutions and assisting the true victims in our society, such as homeless or abused children and animals.
- The promotion of open-mindedness, truth and reason, with short-term gain always subordinated to long-term benefits.
- Education in self-help medicine.
- Teaching nutrition and life-styles that prevent the cruel degenerative diseases plaguing our modern society.
- Strengthening reasonable environmental policies.
- Promoting sustainable and humane organic farming practices.
- Reasonable protection of “endangered” lands and animals from unnecessary urban sprawl, deforestation, and habitat destruction.
- Support of legislation against the inhumane treatment of all creatures, including companion, zoo, wild, farm, and laboratory animals.
- Promotion of informed and responsible freedom, individual initiative and self-responsibility.

Making a better world is everyone’s responsibility. Getting engaged with meaningful efforts fills a basic human need. A donation to the Wysong Institute is one way to take action by supporting Wysong’s continued commitment to solving ultimate causes, not merely the symptoms of the world’s problems.

Dear Friend:

Enclosed is the free CD you requested, by Dr. Randy Wysong, "The Thinking Person's Master Key to Health." This CD is being distributed to you courtesy of the non-profit organization Wysong Institute and the "Does America owe an Apology to its Children?" educational campaign.

We very much hope you enjoy it and find that it will give you the critical clues you need to take control of your own health destiny. You may have to listen to it more than once for it all to sink in, since it will require a fundamental shift in the way you think about health.

Please share the CD with friends and family. You may be literally saving their lives and preventing or reversing terrible adult-onset diseases that are crippling modern society like a plague. Yes, the information in the CD is a magic bullet, but not one you have to buy or rely on anyone else. Optimizing your health, preventing and reversing disease is essentially entirely in your control, as you will learn.

The retail value of the CD (\$12.95), mailing cost, as well as the advertising alerting you to this life altering educational campaign, has been funded through donations to the Wysong Institute. We hope you will consider a donation in order to keep this critical campaign message going. Any level of giving is deeply appreciated and is tax deductible. All donations to the Wysong Institute go directly to philanthropy and to this educational effort. Nothing is siphoned off for salaries.

Enclosed you will also find the mission and goals of the Wysong Institute. For more educational information regarding your health or your pet's health, or to get involved with our programs, please visit our website at www.wysonginstitute.org

Best of health to you
